

MINUTES N° 018

Governance Committee ZERO Energy

Date: 24 June 2026 **Time:** 9:00 AM **Duration:** 1 h 25 min **Modality:** Virtual

1. Opening of the session

The session is opened with the participation of the available committee members and the operational marketing team. The main objective of the meeting is to review the status of the acquisition strategy, analyse the results of the ongoing digital marketing campaign, and address internal governance matters.

2. General project status and new acquisition strategy

The committee provides a contextual overview of the current state of the project and the strategic reorientation recently adopted.

Information

- A decision has been made to pivot towards **digital marketing** as the primary channel for attracting new participants, replacing in-person activities that were not generating the expected return within the project's timeframe.
 - Two target audiences have been identified: individuals with prior experience in the crypto ecosystem, and individuals with no prior knowledge who may be onboarded through appropriate training.
 - An **airdrop** has been selected as the initial attraction mechanism targeting the first audience, with the aim of generating critical mass and community momentum.
 - A **multi-day training programme** is being developed to enable participants to understand the energy tokenisation market and the differential value of ZERO Energy, with a non-intrusive acquisition approach.
 - An **artificial intelligence** infrastructure is being built to handle the automated engagement of new contacts acquired through social media channels.
-

3. Considerations on crypto taxation and public training

The committee analyses the feasibility of incorporating a tax education module within the acquisition strategy, drawing on the team's available expertise in digital asset taxation.

Conclusion

- The potential of tax-related training as an attraction element for crypto-savvy profiles is acknowledged; however, the committee agrees to proceed with caution so as not to generate confusion or concern among prospective participants.

- It is agreed to dedicate the **next committee session (01/07/2026)** to an in-depth discussion of the scope and limits of the tax content that may be included in the public training programme, with the participation of all available members.
 - Internal terms and considerations related to this matter are recorded in the internal minutes.
-

4. Ratification of treasury decisions and multisig planning

The committee addresses the formal ratification of treasury decisions previously communicated, as well as the need to advance the decentralisation of treasury management.

Agreement

- The committee formally ratifies the treasury decisions adopted during the preceding period, the details of which are recorded in the internal minutes.
 - It is agreed to organise an **in-person meeting in mid-July 2026** with the objective of configuring the multi-signature (*multisig*) arrangement for the project's treasury, so that fund management is distributed among several committee members.
 - Financial details are recorded in the internal minutes.
-

5. Digital marketing campaign report

The marketing team presents the results of the second week of the advertising campaign on Meta (Instagram and Facebook).

Information

- The campaign reached more than 1,100 accounts in its second week, with notable follower growth on Instagram, approaching 300 followers.
- Campaign efficiency indicators show a positive trend compared to the previous week.
- Campaign investment is being scaled progressively and in a controlled manner in accordance with the parameters established by the committee.
- A one-off content rejection by the Meta platform occurred and was resolved without significant incident.
- The automation of welcome messages to new followers is pending validation of the Meta account, a process currently underway. In the meantime, messages are being managed manually.
- The content planned for the month of July has been finalised and will be sent in editable format for review and recording by the responsible committee members.

Agreement

- It is agreed to continue scaling the campaign within the established parameters.
-

It is agreed to prioritise the resolution of the Meta account validation in order to activate message automation.

6. Conversion strategy and management of the existing community

The committee discusses how to advance the conversion of new followers acquired through the campaign and the reactivation of currently inactive community members.

Conclusion

- It is noted that a significant portion of the existing community is inactive and unresponsive to current communications. It is agreed to conduct a **diagnostic survey** targeting these individuals to identify their motivations, expectations, and reasons for inactivity, with a view to improving the communication strategy.
 - It is agreed to use direct messaging channels for this outreach, prioritising those with the highest open rates.
 - It is agreed to explore the available mechanisms for contacting registered community members, at all times in compliance with applicable data protection regulations.
 - The multi-day training programme remains the central conversion tool for new leads acquired through the campaign.
 - It is agreed to maintain **weekly community meetings (DAO)** in order to sustain the level of activity and keep participants engaged between training sessions.
 - It is agreed to accelerate the operational execution of the marketing strategy, within the framework and parameters approved by the committee.
-

7. Additional operational meeting — Friday

In view of the need to accelerate the execution of the marketing strategy, the incorporation of a second weekly meeting of an operational nature is proposed.

Agreement

- It is agreed to hold an **operational meeting on Friday, 26 June 2026 at 09:30 AM** (Madrid), with the participation of the marketing team and available committee members.
 - The objective of this meeting will be to advance the preparation of the surveys, the lead warm-up strategy, and the contact tools for the existing community.
-

8. Closing of the session

The following upcoming meetings are confirmed:

- **Marketing operational meeting:** Friday, 26 June 2026, 09:30 AM (Madrid).
- **Ordinary session of the Governance Committee:** Wednesday, 1 July 2026, 09:00 AM (Madrid).

With no further matters to discuss, the session of the Governance Committee is hereby adjourned.
