

MINUTES N° 002

Governance Committee ZERO Energy

Date: 18 February 2026 **Time:** 9:00 AM **Modality:** Virtual

1. Opening of the session

The session is called to order at the scheduled time, with the record reflecting that the meeting is being registered. The agenda covers the formalisation of internal operating rules for the committee, the status of the bylaws, the review of the previous minutes, the analysis of platform metrics, and the community growth strategy.

2. Punctuality rule for Committee meetings

The committee addresses the need to establish a formal punctuality rule to ensure the proper conduct of sessions and to project a consistent image to the community.

Agreement

- The following rule is approved by vote: all committee members must be present in the virtual room by **9:05 AM** at the latest. After that time, access will be subject to the committee's availability and the status of the session.
 - An exception is established whereby, if a member gives sufficient advance notice of their delay, the committee will assess the situation on an individual basis.
 - This rule shall be recorded in the committee's internal regulations.
-

3. Response time rule for internal communications

The committee analyses the need to set maximum response deadlines across internal communication channels, with the aim of ensuring operational agility and preventing bottlenecks in the workflow.

Agreement

- Maximum response deadlines are established, differentiated according to each member's role and level of dedication, and recorded in the internal regulations.
 - Any exception must be proactively communicated to the group before the period of unavailability occurs.
-

4. Transfer mechanics on the platform

The committee reviews the functionalities available on the platform relating to the transfer of assets between users, with the objective of defining their correct use and public communication.

Information

- The platform provides an option that allows users to deposit funds into their internal balance and use them to acquire tokens, transfer them to another user, or withdraw them, with the platform's current terms and conditions applying in each case.
- Token transfers between users are enabled. Rank merits are non-transferable, in order to preserve the integrity of the merit system.
- Operations carried out through the platform contribute to the sustainability of the ecosystem in accordance with the published terms and conditions.

Agreement

- The **official communication** from the project to the community will continue to follow the standard flow: wallet creation 'acquisition of USDC 'token purchase.
 - User-to-user transfer functionalities will be documented in the **Frequently Asked Questions (FAQ) section of the website** as reference information for users.
 - Internal reference materials will be produced to facilitate support for users experiencing technical difficulties.
 - Users are advised to carry out all their operations through the official channels of the platform, which are the only ones for which the project can provide support and tracking.
-

5. Bylaws — Review and publication

The committee analyses the status of the bylaws draft, with particular attention to the clause relating to the retroactivity of merits, which requires more precise wording.

Agreement

- The updated bylaws draft will be distributed to all committee members for full review.
 - Each member will communicate to the committee any proposed amendments or clarifications prior to the next session.
 - It is agreed to refine the clause on the retroactivity of merits, ensuring clarity regarding the temporal scope of any modification to the merit system.
 - Once reviewed and formalised, the bylaws will be published in an open-access repository in read-only mode, alongside the weekly minutes.
 - The use of a collective digital signature platform for the formalisation of the document will be explored.
-

6. Review of the minutes of the previous session

The committee notes that the minutes corresponding to session n° 001 were distributed for review and are pending formal approval.

Agreement

- All committee members must review the minutes n° 001 and communicate any corrections or additions as a matter of urgency, in order to proceed with their approval at the next session.
-

7. Statistics and bonuses module — New development

The committee is informed of the development and incorporation of a new statistics and bonuses module in the platform's administration panel.

Information

- The module enables the visualisation of activity metrics filtered by time periods (last 7, 15 or 30 days, or by custom dates), including tokens sold, tokens available, total members with investment, and new members within the period.
 - Access to this panel will be restricted to profiles with operational responsibilities, in accordance with the committee's role structure.
 - The analysis of the available metrics makes it possible to identify areas for improvement, which the committee will address within the framework of the growth strategy.
-

8. Community growth strategy

The committee analyses the evolution of activity and attendance within the community, and identifies measures to drive its growth.

Agreement

- It is agreed to review and redesign the **communications and events calendar**, so that event notices are issued with a minimum of 4 to 5 days' advance notice, allowing members sufficient time to invite their contacts.
 - It is agreed to unify event announcement messages in order to avoid oversaturation of the community's communication channels.
 - It is agreed to launch a **community survey** to ascertain members' preferred days and times for training sessions and presentations.
 - It is agreed to explore a model of **more frequent working sessions**, with different formats, as a complement to the periodic group sessions.
 - It is agreed to study the organisation of an **in-person committee meeting** in the coming month.
 - It is agreed that committee members will actively promote the incorporation of new participants into the community.
-

9. Closing of the session

With no further matters to discuss, the session of the Governance Committee is hereby adjourned.
