

MINUTES N° 005

Governance Committee ZERO Energy

Date: 11 March 2026 **Time:** 9:00 AM **Modality:** Virtual

1. Opening of the session

The Governance Committee holds its fifth ordinary session with full attendance of its members. The session addresses the logistics of the upcoming in-person event, the status of the project, the growth strategy, and various training and visibility initiatives. It is noted that sessions are recorded solely for the purpose of producing the minutes; public versions do not contain sensitive information.

2. Logistics of the in-person event

The committee reviews the preparations for attendance at the upcoming in-person event, in which several of its members will participate. Matters relating to ticket management and shared accommodation are discussed.

Agreement

- The booking of shared accommodation for the attending members is approved. Coordination of the accommodation is to be managed jointly by the attending members.
 - It is agreed that one committee member will coordinate the centralised management of tickets, which are issued on a nominal basis.
 - Transport coordination among the attending members remains pending final confirmation.
-

3. Signing of the bylaws at the event

The committee agrees to take advantage of the in-person gathering at the event to proceed with the physical signing of the project's bylaws.

Agreement

- The bylaws document will be physically signed on the evening prior to the event, in the presence of the available members.
 - One committee member will be responsible for preparing and printing the documents required for the signing.
-

4. Recording policy and minutes

The current policy on session recording and the production of minutes is confirmed and ratified.

Information

- Sessions are recorded exclusively to facilitate the accurate drafting of minutes.
 - The public minutes, published in the GitHub repository, do not contain proper names, financial figures, or sensitive information.
 - Full session transcripts are available to committee members through the established internal channels.
-

5. System duplication: internal training and onboarding guide

The committee analyses the current state of the onboarding process for new members and identifies the need to strengthen internal training in order to ensure that the system can be replicated with fidelity.

Agreement

- A guide in PDF format aimed at new members will be produced, describing step by step the onboarding process, the use of available tools, and the fundamental concepts of duplication.
 - It is agreed to organise an internal training session so that all ambassadors are fully proficient in the complete onboarding process before it is scaled.
 - The dissemination strategy will be based on the coordinated publication of content on social media, avoiding unsegmented mass communications.
-

6. Weekly trainings and presentation sessions

The training calendar is confirmed and the management of presentation sessions for new guests is addressed.

Agreement

- Weekly trainings will be held on **Wednesdays at 8:30 AM**.
 - Coordination of guests invited at different time slots will be managed with a view to optimising attendance.
 - A new version of the official project presentation will be evaluated, with a more action-oriented approach. Should the committee assess it positively, it will replace the current version across all channels and tools.
-

7. Growth status and trend analysis

The committee reviews the current state of the project's growth metrics.

Conclusion

- The committee notes a positive growth trend and agrees to reinforce dissemination efforts in order to maintain the projected pace.
 - The analysis leads directly to the review of the growth and international expansion strategy set out in the following item.
-

8. Growth strategy and international expansion

The committee discusses the strategy for completing the first tranche of the presale and the steps planned once that objective has been reached.

Agreement

- The priority objective is to complete the first tranche of the presale in the shortest possible time.
 - It is agreed to strengthen the project's dissemination channels in order to broaden the base of participants interested in the presale.
 - Once the first-tranche objective is reached, the subsequent phases of the project will be activated, including technical development and international expansion actions.
 - The operational details of the international expansion will be defined in subsequent sessions.
 - The possibility of holding in-person presentations in the Latin American region to raise awareness of the project will be explored.
-

9. New ambassadors

The committee is informed that two new members have attained the rank of ambassador within the project.

Information

- The formal incorporation of the new ambassadors into the committee will be managed internally.
-

10. Visual recognition system by rank

The creation of a system of personalised banners to publicly recognise rank promotions within the community is proposed.

Agreement

- It is agreed to explore the development of a template or tool that enables the generation of personalised banners featuring the image and rank of each member upon reaching a new level.
 - Once the tool is available, its progressive use across the project's channels will be planned.
-

11. Visibility best practices: community initiatives

The committee shares and acknowledges visibility initiatives carried out by project members within their own networks.

Information

- The use of personalised physical materials featuring QR codes as a tool for organic outreach is highlighted as a best practice.
 - The committee views this type of initiative positively and encourages its replication.
-

12. Closing of the session

With no further matters to discuss, the session of the Governance Committee is hereby adjourned.
