

MINUTES N° 009

Governance Committee ZERO Energy

Date: 08 April 2026 **Time:** 9:00 AM **Modality:** Virtual

1. Opening of the session

The ordinary session of the Governance Committee is called to order with a review of the agenda. The meeting focuses on monitoring participant outreach, preparation for the in-person event on 26 April, and the review of project documentation.

2. Contact follow-up and participant outreach

The committee reviews the status of ongoing contacts aimed at expanding the project's participant base ahead of the April event. It is noted that the outreach efforts carried out during the previous week have progressed, although some contacts are temporarily unreachable due to personal or scheduling reasons.

Conclusion

- Each committee member continues to work their respective contacts and will report any developments in the coming days.
 - Updated information is expected to be available at the beginning of the week of 13 April.
-

3. Community meetings — Strengthening participation

The dynamics of the weekly community meetings are analysed. It is highlighted that the previous Monday's session recorded particularly high attendance and quality of engagement, attributed to the new format adopted, which is more participatory and oriented towards collective action.

Agreement

- All committee members are required to attend the weekly community meeting (Monday) without exception, in their capacity as project representatives.
 - It is agreed that each member shall generate motivational content for the community throughout the week, in the form of messages, videos, or direct outreach to their contacts.
 - A reminder is issued regarding a project presentation scheduled for the afternoon of the same day.
-

4. Onboarding of external collaborators

The possibility of bringing in an external individual with experience in event organisation and the energy sector to collaborate with the committee is raised. The committee analyses the proposal and establishes the appropriate procedure for any such onboarding.

Agreement

- External individuals interested in collaborating must first familiarise themselves with the project documentation and participate in the open community meetings (Monday).
 - The weekly committee meeting (Wednesday) is not open to external individuals at this stage.
 - The assignment of responsibilities shall take place once commitment has been demonstrated, and not on a prior basis.
-

5. Progress in the community ranking system

The committee takes note of the progress made by several community members within the project's ranking system. The advancement of one member towards the rank of Senator is acknowledged, which may be completed within the coming days.

Information

- The promotion will be celebrated at the community meeting on the afternoon of this same day (08/04/2026), subject to confirmation of the milestone.
 - Members approaching new ranks are encouraged to increase their visibility and activity within the community.
-

6. Preparation for the in-person event — 26 April

A substantial portion of the session is devoted to planning the in-person event scheduled for Sunday, 26 April, in Madrid. Logistical aspects, the roles of each member, and the strategy for attracting attendees are all addressed.

6.1 Logistics and roles

The committee defines the structure of the event, which will consist of two parts: an initial cocktail reception open to external guests, and a second phase reserved for participants with an active connection to the project.

Agreement

- Specific roles are assigned to committee members for the opening, closing, and audiovisual coverage of the event.
- Photographic and recording material will be provided by committee members, with technical availability to be confirmed before 26 April.
- Computing equipment will be made available for participant registration and the processing of new sign-ups on the day of the event.

- A training session will be held in advance with those individuals assisting with registration tasks.

6.2 Registration system at the event

The necessary means will be made available to handle enquiries and manage information requests during the event.

Agreement

- Operational conditions will be confirmed with the designated event venue before 26 April.
- The necessary technical resources will be prepared to manage sign-ups and registrations on the day of the event.

6.3 Attendee strategy and registration form

The committee defines a dual strategy for attracting attendees: external guests for the cocktail reception and participants with an active connection to the project for the second phase. It is agreed to create a registration form to facilitate the management and follow-up of guests.

Agreement

- A registration form containing the necessary data for the logistical management of the event will be created as a matter of urgency during the current week.
 - Active promotion of attendance at the cocktail reception among each member's contacts is agreed upon.
 - The event and the recruitment of guests must be mentioned at all meetings between now and 26 April.
-

7. Review of Business Plan v1.1

The update of the project's Business Plan is addressed. A committee member offers to contribute previously prepared style and formatting improvement notes. It is further recommended that all members practise the project pitch ahead of the event.

Agreement

- The improvement notes on Business Plan v1.1 will be submitted internally for incorporation.
 - All members are recommended to practise the project presentation using artificial intelligence tools, simulating questions and objections, in order to be fully prepared for the event on 26 April.
-

8. Closing of the session

With no further matters to discuss, the session of the Governance Committee is hereby adjourned.
